VOL. 3. NO 37

LOMOND, ALBERTA, FRIDAY, APRIL 18. 1919

\$1.00 PER YEAR.

Board of Trade Hitting Out for Good Roads

A general meeting of the Lomond Board of Trade was held in the offices of the Lomond Realty Co. on Monday evening, not a very large crowd being in attendance.

Minutes of the previous regular and special meetings read and approved.

Communications relating to the efforts to have the train and mail service re-established were read, but as this is now current history there is no need to repeat it in these columns. Another communication from the Inspector of railway mail service stated that it was incumbent upon the mail carrier to see that all mail is deposited into the mail car and not left on the station platform. Of course when we have such a regular train service here there is never any need for the train crew to assume any of the responsibility.

It was decided to drop the direct campaign for a daily mail service but instead, to take hold of the matter of construction on this line during the current summer. It is generally believed that if this line were completed there would be but little need to worry over better mail service.

The Elliot, Argue and Co. account for \$12 hall rent was authorized paid, and the secretary treasurer was instructed to remit the affiliation fees to the Retlaw-Lomond Utilities Board.

An endeavor will be made through H. H. Halladay and the G. W. V. A. to have the Burn's lease opened for soldier settlement. There is no need to comment upon the benefits of this move to the towns along this line, as well as the country at large.

Good roads was the main topic of the evening. The Board is going to confer with the Municipal Council and solicit certain concessions on the trunk lines and is also bringing pressure to bear upon the sitting members for work to be executed on the main road coming in from the north, the main road feeding from Kinnondale and Bow City and also the east feeder road. None of these require enormous expenditure of money, though the two miles directly east of town is the main eyesore of the entire bunch. F. Vickers, W. A. Teskey and R. L. King were appointed a delegation to wait on the council in regard to the above improvements. The assistance of the outlying U.F.As. is being solicited in this behalf.

The question of a nuisance ground site was discussed at some length and on a vote being taken, the village council was asked to re-consider the proposed location and endeavor to secure a ground further away from the limits and where the prevailing winds would not remind one continually of its presence.

A discussion was entered into over the situation confronting the consolidated school district but no definite action was taken thereon.

LOCALETS

Jim Bell came home on Tuesday night from a trip up into the Peace River homestead area.

John L. Haight is expected home any day, his baggage came up on the last train.

Miss Nickersen and Miss Connick, of the school staff are spending the week end holiday in Calgary.

Vulcan is getting up a minstrel show to raise funds to purchase band instruments.

Feed Oats! Just arrived, another car of Extra Feed oats at .85¢ per bushel: Alberta Pacific Elevator Co., R.N.Moir Agent.

A re-organization meeting of the tennis club will be held at 7:30 on Tuesday evening April 22nd, in the Bank offices. All interested are requested to be present.

Don't overlook the opportunity to secure and Easter bouquet at the Peace Club tea to be held in the Lomond Realty building Saturday afternoon.

W. Lalley of Midland, Ont., came up on Tuesday to act as ledger-keeper on the local bank staff.

Mrs. Ira Donily has been seriously afflicted with eyrispelas, but is now recovering nicely.

Mrs. Mitchell, of Travers, who had been very ill with the flu, is fairly recovered.

Miss Wilson has taken a position in the Mac Leon post office, leaving for there last week.

A. D. Munro, brosher-in-law of J.R. Mc Kay has returned from overseas.

Mrs. St. John is spending Easter in the City.

Wheat seeding is getting well over the half way mark and next week, if good weather prevails, will nearly wind it up. The rains of this spring made an excellent seed bed.

R. H. Hughes is in Calgary over the week end.

T. A. Kennedy is spending the holiday with his family in Calgary.

The youngest son of Mr. and Mrs. C. R. Westgate of Bow City, was thrown from his pony while returning from school Wednesday afternoon he sustained a fracture of both bones in the left arm just above the wrist.

"Manchester Souls."

A correspondent of the Manchester Guardian writes, with reference to the late Canon Knox Little's oratory: "I remember many years ago I was addressing an audience in the Free Trade Hall and alluded to them as 'my dear Manchester souls.' A witty dignitary of the church whispered to me, 'Vox et pretera Little,' and I wonder whether if we had been in Cork he would have addressed us as his dear Cork souls!"

The Last Word.

Arthur Train, the novelist, put down a German newspaper with an impatient grunt. "It says here," he explained, "that it is Germany who will speak the last word in this war." Then the novelist laughed angrily and added: "Yes, Germany will speak the last word in the war, and that last word will be 'Kamerad!'"

That's the Question.

"Chancellor Hertling's reichstag speech in answer to President Wilson began well enough, but it had a nasty sting in its tail." The speaker was an American wit. He went on: "It reminds me of the chap who said to the girl who had just rejected him: 'I shall never marry now—never—never.' The girl blushed and bridled. 'Foolish boy, why not?' she murmured. 'If you,' he snarled, 'won't have me, who will?'"

A Pint of Water.

A pint of water equals 34 2-3 cubic inches and weighs one pound and a quarter.

Curious Medals.

In Holland curio hunters are giving quite large prices for medals struck to commemorate events which, very inconsiderably, did not come off. This is a new hobby for Dutchmen provided by their neighbor Germany. The medals have either never been publicly issued or have been withdrawn upon the failure of the military operations they were meant to celebrate. One of them represented the capture of Verdun. It is not at all easy to obtain.

His Appreciation.

"Devoted to his wife, is he not?" "Oh, yes! Why, he always speaks as highly of her as if she were a motor car that he was trying to dispose of."

Lyceum Lecturer in Lomond May 3rd.

Montaville Flowers, one of America's most brilliant students of world politics, lectures on the Lyceum Course, Saturday, May 3rd., at Lomond. Mr. Flowers has not only achieved international distinction among first line American orators, but his books on international moment rank him as one of the best informed and most fearless publicists in this country.

During the last few years Montaville Flowers has been in greatest demand throughout the country. His lectures, treating vital problems in our national life, have been given in all of our great cities and received with greatest enthusiasm.

In September 1917 he received the unanimous Presidency to the International Lyceum and Chautauqua Association for the third time and was commissioned to develop the powers of the Lyceum and Chautauqua movement into the war. With the co-operation of the government he conceived and developed the National Conference of American Lecturers, held in Washington in April 1918.

The subject of Mr. Flowers new address is "The Triumph of Democracy." This is the latest and treats upon the question now before the world.

Two Trains Next Week

The Retlaw-Lomond line will revert to a twice-a-week mail and train service beginning April 22nd. The trains will run on the former schedule.

T. C. Sufferen, of Travers, took a flying trip to Calgary this week to see his new son which he reports to be a howling success. T. C. is sure some happy father.

The Frank Brown Company, Ltd.

"Better Clothes for Dad and His Lad"

IT PAYS TO PAINT

Appearances are often deceptive. The poorly dressed individual we sometimes see on the street may not be a vagrant, but a gentleman in hard luck.

Similarly, the house badly in need of painting may not be the home of slovenly people, but of a family financially embarrassed. Nevertheless, it is true that "the apparel oft proclaims a man." Likewise a man either makes his own environment or his environment makes him. Paintless, weatherbeaten houses, whether in town or country, have a depressing effect on those who must live in them, or near them. In addition wood and metal soon deteriorate if not a protective coat of some sort. Even whitewash, or a coat of good ochre oil better than nothing, but for better service and wide variety of artistic effects paints are essential.

CANADIANS TO FINANCE CANADA

Canada has begun to finance herself. A notable beginning was made during the war, when 974,331 applications were received for the first Victory Loan and 1,139,257 for the second. This was the best possible evidence that the people of Canada had resolved to meet their country's financial requirements.

Swift Current Sask., has recently

given a splendid local demonstration of this same spirit. Difficulty had been experienced this year in securing \$50,000 of an advance for the public schools and, rather than allow them to be closed, the residents got together, put on a campaign and sold the bonds among themselves.

The people of Swift current thus did in a small way what is being attempted in a larger way by the War Savings campaign. Through the sale of War Saving Stamps it hoped that the people of the Dominion may be induced to buy enough of these "Baby" bonds to help the Government in meeting the many expenditures devolving on the country

Hints to Gardeners on Tomato Culture

Where growers of tomatoes have a suitable place for starting plants it is recommended that they should grow their own stock. By careful selection from individual plants from year to year a variety may be improved from the standpoint of earliness, uniformity, and productiveness. When sown in greenhouses, in a sunny window, or in a hot-bed the seed should be sown in boxes or flats containing three or four inches of soil. The seed is usually sown in rows about four inches apart from one-quarter to one-half inch deep, the soil firmly pressed down with the hand and made moist but not wet. When the rough leaves appear the little plants transplanted into other flats or hot-bed about two inches apart each way. Further transplanting to about six inches apart is recommended as soon as the plants commence to crowd each other. This information is taken from Pamphlet No. 22 of the Central Experimental farm which is available from the Publications Branch of the Department of Agriculture at Ottawa. The pamphlet deals not only with tomato culture, but mushroom culture and the forcing of rhubarb during the winter season. The soil and planting for tomatoes are fully described as well as treatment for diseases, training from the centre stem and other useful information.

Condensed Advs.

WANTED

Will take for grazing about three head cattle or horses. Charges \$1.00 per month. Apply by letter, stating number of head.—Otto Lorschach, Standard Bank Bldg., Lomond.

LOST

OIL PROSPECTS IN ALBERTA

Up to the present time, oil in considerable quantities has not been found in Western Canada. Respecting the possibility that petroleum will be discovered, particularly in the Viking area and the Peace and Athabasca valleys, the situation may be summed up as promising.

A small quantity of dark oil obtained in one of the wells in the Viking gas fields is an encouraging indication, and oil has also been found in the Pelican Rapids gas well. Seepages of oil have been found near Waterton lake in southwestern Alberta and in the Flathead valley in southeastern British Columbia.

In northern Alberta, there are enormous tar seepages which evidence an upwelling of petroleum unequalled elsewhere in the world. Along the Athabasca river, they extend from Pelican rapids to fort McKay, a distance of over 100 miles. The known occurrences indicate that there is in sight at least 6½ cubic miles of bitumen, and the petroleum from which it was derived must have been many times greater. While this enormous amount of petroleum has escaped, there must be untapped in the Devonian limestones whence it was derived. Similar seepages occur near the Peace and McKenzie rivers.

Near Peace River Landing, oil has been found in two wells, 900 and 1,100 feet deep, respectively. The first well is reported to have yielded 3 to 4 bbls. per day when oil was struck in the upper portions of the tar sands and to have had a maximum production of about 9 bbls. Drilling, however, was continued through the tar sands, which

are about 80 feet in thickness at this point, and a heavy flow of water and gas was struck immediately below the sands.

The second well is in the tar sands and is reported to be yielding 25 bbls. per day.

The Mid-West 3,200 feet deep, and the Acme, 3,200-3,300 feet, also in the Sheep Creek district, are reported to have struck oil.

As "commercial" gasoline is 60° to 63°B., the oil produced Calgary Petroleum Products, Canada Southern, Alberta Southern, and Southern Alberta companies approximates to the fuel ordinarily marketed as "gasoline".

In the year ending March 31, 1917, we imported into Western Canada, for fuel purposes, 95,693,497 gallons of petroleum, valued at \$2,738,555. For refining, we imported, in the same year, 35,313,717 gallons, valued at \$1,040,047. The discovery of extensive oil fields in Alberta and Saskatchewan would retain in Canada at least \$8,750,000 which we are now paying for petroleum importations and an additional \$1,250,000 paid for petroleum products, such as gasoline and kerosene or in all, \$5,000,000.

In 1917, 312,000 gallons were recovered from Alberta crude oils. Presumably, part of this production was from petroleum produced in 1913.

During 1917, the production of crude petroleum in Alberta amounted 8,500 bbls. or 297,500 Imp. gallons.

Mr. Dingman, president of the Calgary Petroleum Products Co., states that the oil wells have a combined capacity of 5 million cubic feet of gas per day; that their measurements indicate a content of one gallon of gasoline per 1,000 cubic feet and that, if only one half be recoverable, they could maintain an output of 2,500 gallons of gasoline per day.

Seed SPUDS

Delivery April 22nd

LOMOND, ALBERTA, APR. 18, 1919

NOTES

Wednesday and Thursday
were good grass growing days.

o o o

England is giving her farmers
this year a guaranteed price on
wheat, as a stabilizing element
to industry.

o o o

The more one questions the
idea of a system of local banks
(under government supervision
of course) the more plausible do

the arguments become in their
favor. As an illustration, we
will venture to state that on an
average a chartered bank in a
small town seldom has out in
loans a sum surpassing the cre-
dit balances of their local cus-
tomers. Practically speaking,
each district has to finance its-
self anyway, so why hand over
the control and the manipula-
tion of the funds to an outside cor-
poration? At the same time,
there is no use deriding the es-
tablished institutions. They
have been a large factor in the
development of the West. But
the banks have not kept up the
pace with the intellectual de-
velopment of the people. They
persist in dealing with the peo-
ple as if they were so many
school children to be whipped
into line. And now, the public
realizing the price it is paying
for its banking service, is get-
ting restless and asking for a
change.

o o o

Dad Ficht asks us to suggest
a blank form to the Department
of Finance whereby every Can-
adian citizen will be compelled
to make a return under the In-
come Tax regulation. As our
specific gravity in political in-
fluence is highly vaporized.

o o o

We're getting rather excited
over the return of two trains a
week. We'll have to cut out
this high financing with cheques
that cannot be charged back
for a week or more.

o o o

Have you, as a ratepayer,
given the solution of the school
problem any thought.

o o o

Recent land sales would indi-
cate that the dry year had no
bearish effect on farm lands in
the Lomond district.

o o o

How does your dollar stand?

ers must keep cards posted at each
stand showing the current year's en-
rolment. THE PRESS will print
you these cards on short notice.
